

MS Delta Phase II - 2010 LIDAR

Update - 5/11/2018

1. MS Delta Phase II LIDAR project was delivered in 2010 with DEM tiles and las swath, unclassified.
2. In 2018, NOAA digital coast cut the swath into tiles.
3. MDEQ Office of Geology received a copy of them.
4. The tiles were in geographic projection so MDEQ projected them to UTM with the **lastolas** tool.

NOTE: There seems to be a tile missing in the lower left. 24751575 tile is Grenada lake and just contains water.

Projected:

WGS_1984_UTM_Zone_16N

WKID: 32616 Authority: EPSG

Projection: Transverse_Mercator

False_Easting: 500000.0

False_Northing: 0.0

Central_Meridian: -87.0

Scale_Factor: 0.9996

Latitude_Of_Origin: 0.0

Linear Unit: Meter (1.0)
