  - Major MS Highway
  - Secondary MS Highway
  - Natchez Trace
  - Major River
  - Water Body
  - Incorporated Place
  - County Boundary

Highways and highway shields were created using the latest MS Department of Transportation highway descriptions. Linework was adjusted to match the 2006 two foot MDEM imagery then updated using the 2009 1 m USDA NAIP imagery. New highway shields were created by MARIS. Communities were created from USGS GNIS file then updated by MARIS using MS DOT county highway maps.
