

# MS River Flood

## May 9, 2011 Maximum Inundation Areas - Greenville

### NOAA Crest Predictions from May 10th

| City       | Estimated Crest | Date   |
|------------|-----------------|--------|
| Greenville | 64.5            | May 16 |
| Vicksburg  | 57.5            | May 19 |
| Natchez    | 64.0            | May 21 |

**Disclaimer:** This map has been compiled using the best information available and is believed to be accurate; however, its preparation required many assumptions. Actual conditions during a flood event may vary from those assumed, so the accuracy cannot be guaranteed. The limits of flooding shown should only be used as a guideline for emergency planning and response actions. Actual areas inundated will depend on specific flooding conditions and may differ from the areas shown on the map.

**Note:** Inundated areas generated by US Army Corps of Engineers - Vicksburg and Memphis Districts on May 9, 2011. Base data is from MS 811 and MARIS.
