## Summary

This feature class/shapefile contains nursing and assisted care facilities for the Homeland Infrastructure Foundation-Level Data (HIFLD) database. <https://gii.dhs.gov/HIFLD>

\*\*\*\* In April, 2024, MARIS staff extracted the Mississippi portion of this dataset. They then projected the shapefile into MSTM \*\*\*

## Description

The Nursing Home / Assisted Care feature class/shapefile contains facilities that house elderly adults. This feature class's/shapefile's attribution contains physical and demographic information for facilities in the continental United States and some of its territories. The purpose of this feature class/shapefile is to provide accurate locations for high concentrations of elderly adults in the event of a disaster. The attribution within this feature class/shapefile was populated via open source methodologies of authoritative sources. During the update cycle for this deliverable, there were 905 records added and 407 facility closures.

\*\*\*\* In April, 2024, MARIS staff extracted the Mississippi portion of this dataset. They then projected the shapefile into MSTM \*\*\*
