Summary

The dataset shows all the dialysis centers across the United States & US Territories. In April, 2024 MARIS staff extracted the Mississippi portion of this January 2024 data release from HIFLD.

Description

<https://rxopen.org/> helps patients find nearby open pharmacies and dialysis centers in areas impacted by disaster. Combining multiple data feeds from the pharmaceutical industry, Rx Open provides the precise location of open centers, closed centers, and those whose status is unknown. This critical information assists government officials in assessing an emergency's impact on public health in a disaster area.
