Summary

Mississippi Delta Regional Authority

Description

MS portion of the Delta Regional Authority

<https://dra.gov>

DRA envisions its eight-state region as a place where people and businesses have access to economic opportunities in vibrant, sustainable and resilient communities. DRA's mission is to realize that vision through the practical application of innovative ideas and strategies that will foster inclusive communities; strengthen regional collaboration and productive capacity; achieve sustained, long-term economic development; and produce meaningful opportunities for all people in the DRA region.

The DRA was established in 2000 as a formal framework for joint federal-state collaboration to promote and encourage the economic development of the lower Mississippi River and Alabama Black Belt regions. To fulfill this purpose, DRA invests in projects supporting transportation infrastructure, basic public infrastructure, workforce training, and business development. DRA works to create jobs, build communities, and improve the lives of those that reside in the region. DRA's region encompasses 252 counties and parishes in parts of Alabama, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri, and Tennessee.

DRA's enabling legislation dictates that at least 75% of DRA's funds must be invested in economically distressed counties and parishes and isolated areas within non-distressed counties and parishes. In addition, half of DRA's funds must support transportation infrastructure and basic public infrastructure.
