

Mississippi Public Schools 2015

Shapefile and geodatabase

Tags

education, administrative, schools, public, K-12

Summary

To add to the state data clearinghouse the Mississippi public schools point feature.

Description

Point locations of the Mississippi Public Schools as derived from the Mississippi Department of Education 2014-2015 official principal roster. It also includes various attributes about the schools and administrations.

Credits

Mississippi Department of Education, MARIS, USDA APFO, Google Earth

LINEAGE STATEMENT

This data was provided by the MS Department of Education as physical addresses in spreadsheet form. MARIS used the USDA NAIP 2014 1 meter imagery, Google Earth Streetview, and occasionally local contacts to locate the individual points. Each point was assigned a unique ID derived from the School District Code and the School code. That was linked to the spreadsheet to add the various attributes from MS DOE.

PROCESS STEP ▶

WHEN THE PROCESS OCCURRED 2015-06-19 00:00:00

DESCRIPTION

MARIS staff took the list of individual schools from the Mississippi Department of Education and used the 2014 1 m NAIP imagery from the USDA, Google Earth Streetview, and occasionally local contacts to locate the schools. A unique identifier consisting of the school district code and the school code was added to the point feature. This unique ID was used to relate the Excel spreadsheet provided by MS DOE with various attributes. The result was saved to a file geodatabase feature. The metadata was then entered and validated. Once validated, a shapefile of this feature was exported to be provided to the web site for distribution.
