Summary

This SDE Geodatabase is intended for read-only use. These data were prepared to describe Forest Service Basic Ownership boundaries. The purpose of the data is to provide display, identification, and analysis tools for determining current boundary information for Forest Service managers, GIS Specialists, and others. This data comes from Lands data from the Regional office.

Description

An area depicted as surface ownership parcels dissolved on the same ownership classification.

Credits

There are no credits for this item.

Use limitations

The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be developed from sources of differing accuracy; accurate only at certain scales; based on modeling or interpretation; incomplete while being created or revised; etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify or replace GIS products without notification.

POSITIONAL ACCURACY
HORIZONTAL POSITIONAL ACCURACY
HORIZONTAL POSITIONAL ACCURACY REPORT

Accuracy testing must use NSSDA testing guidelines or be reported based on compiled, published test reports appropriate for the data collection method and equipment. The method of determining accuracy should be documented in the process step of the dataset metadata record. If published accuracy results are used, use the statement 'Compiled to meet_(meters, feet) horizontal accuracy at 95% confidence interval' in the metadata record, and identify the testing source used. If accuracy is locally tested to NSSDA standards, the statement 'Tested to meet__(meters, feet)horizontal accuracy at 95% confidence interval should be added to the metadata record. Accuracy for legacy data may be reported according to the accuracy standard in place at the time of data collection (typically Naptional Map Accuracy Standards). Document the standard used in the metadata record. (For more information, see: <http://www.fgdc.gov/standards/documents/standards/accuracy/chapter3.pdf>)
