Summary

Service wide boundary set for display and general analysis purposes.

Description

National Park Service unit boundaries.

Credits

National Park Service

Use limitations

The data is intended for use as a tool for display and general GIS analysis purposes only. It is in no way intended for engineering or legal purposes. The data accuracy is checked against best available sources which may be dated. NPS assumes no liability for use of this data. Boundaries from the Land Resources Division have separate polygons for each type of unit. For example Denali National Park and Denali National Preserve are separate individual polygons.

Extent

West -91.370100 **East** -88.127943

North 34.650283 **South** 31.547645

LEGAL CONSTRAINTS

LIMITATIONS OF USE

The National Park Service shall not be held liable for improper or incorrect use of the data described and/or contained herein. These data and related graphics are not legal documents and are not intended to be used as such. The information contained in these data is dynamic and may change over time. The data are not better than the original sources from which they were derived. It is the responsibility of the data user to use the data appropriately and consistent within the limitations of geospatial data in general and these data in particular. The related graphics are intended to aid the data user in acquiring relevant data; it is not appropriate to use the related graphics as data. The National Park Service gives no warranty, expressed or implied, as to the accuracy, reliability, or completeness of these data. It is strongly recommended that these data are directly acquired from an NPS server and not indirectly through other sources which may have changed the data in some way. Although these data have been processed successfully on a computer system at the National Park Service, no warranty expressed or implied is made regarding the utility of the data on another system or for general or scientific purposes, nor shall the act of distribution constitute any such warranty. This disclaimer applies both to individual use of the data and aggregate use with other data.

CONSTRAINTS

LIMITATIONS OF USE

The data is intended for use as a tool for display and general GIS analysis purposes only. It is in no way intended for engineering or legal purposes. The data accuracy is checked against best available sources which may be dated. NPS assumes no liability for use of this data. Boundaries from the Land Resources Division have separate polygons for each type of unit. For example Denali National Park and Denali National Preserve are separate individual polygons.

DATA QUALITY REPORT - COMPLETENESS OMISSION ▶

MEASURE DESCRIPTION

The data set is complete but subject to continual updates to reflect boundary amendments, legislation, and acquisitions, and improved processing techniques. The data is being regularly updated with verified boundaries from NPS Land Resources Division. Please contact the data originator with corrections and update suggestions.

PROCESS STEP ▶

WHEN THE PROCESS OCCURRED 2002-01-01

DESCRIPTION

Two sets of boundaries were collected and compared. The main set was obtained from David Duran, who collected boundaries from each region in the summer of 2001. The second set was obtained from Dean Tucker, who digitized boundaries for the Horizon Project. The main set from David Duran was determined to contain the most recent boundary information. Parks missing from David's set were added from Deans set. Those parks are.....Antietam NB Arlington House,Benjamin Franklin NMEM, Big Hole NB, Catoctin Mountain Park, Chesapeake and Ohio Canal NHP, Chimney Rock NHS, Fort Point NHS, Fredericksburg NC, George Washington Memorial Parkway, Green Springs,

Harpers Ferry NHP, International Peace Garden, John F. Kennedy Center for the Performing Arts, Kalaupapa NHP, Manassas NBP, Monocacy NB, National Capital Parks - Central and East, Olympic NP, Prince William Forest Park, Rock Creek Park, San Francisco Maritime NHP, Thaddeus Kosciuszko NMEM, and Wolf Trap Farm Park for the Performing Arts. Park/Region staff were consulted for parks with major differences between the two sets.

PROCESS STEP ►

WHEN THE PROCESS OCCURRED 2015-09-30

DESCRIPTION

Boundary polygons for several units have been updated with data from the Lands Resources Division (LRD) according to the procedures defined in the Lands Acquisition Procedures Manual Chapter 5. Boundary data from LRD has separate polygons for individual types of units like Denali National Park and Denali National Preserve. Lands records in the dataset that can be identified by querying for [GIS_Notes] = "Lands" in the attribute table. LRD updated units are also identified in the place keywords of this metadata record but by alpha code and each units full name and designation.

OTHER CITATION DETAILS

Land Resources Division has been creating hardcopy segment maps containing boundary data since the 1960's. This data is currently being converted to a digital vector format and added to the collection as it become available. Additionally as existing boundary data is modified and/or new parks units units are acquired they are added to the collection.
